

# The Adaptable Monitoring Package

James Joslin, Paul Murphy, Mitchell Scott, Paul Gibbs, Chris Bassett, and Brian Polagye

April, 2020

International Forum on MRE Environmental R&D

# Project motivation

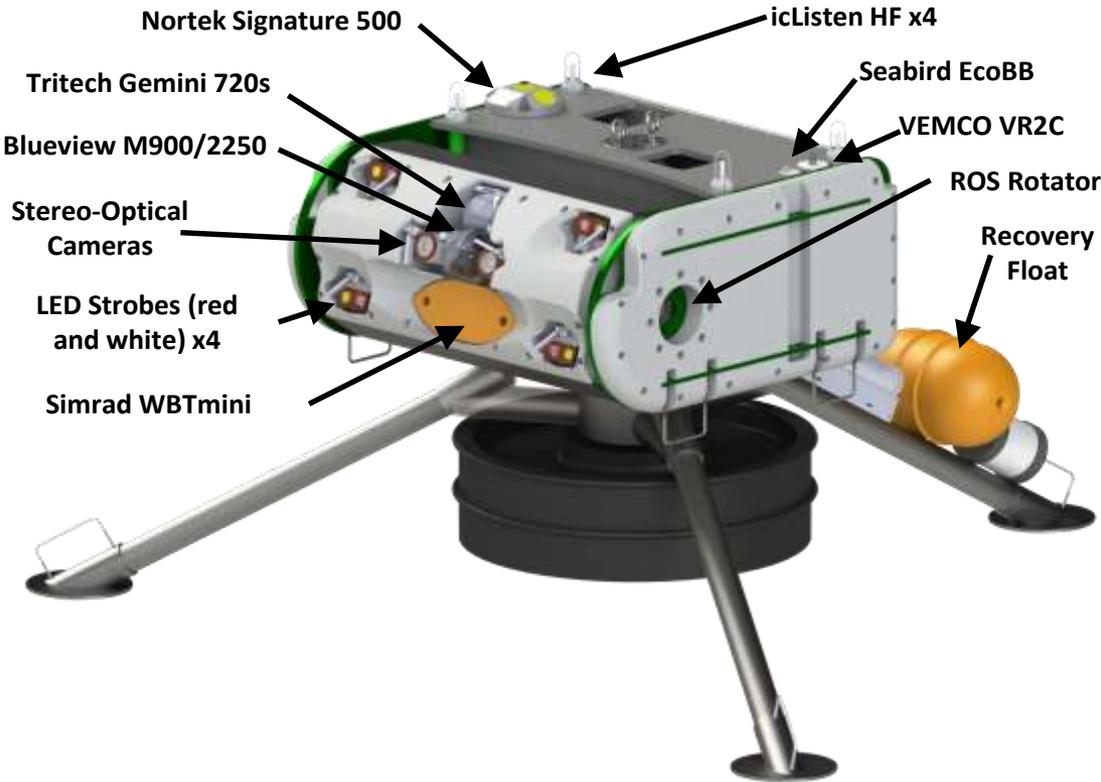

## Challenges to environmental monitoring...

- High-energy environment
- Requires many sensors
- Events are rare

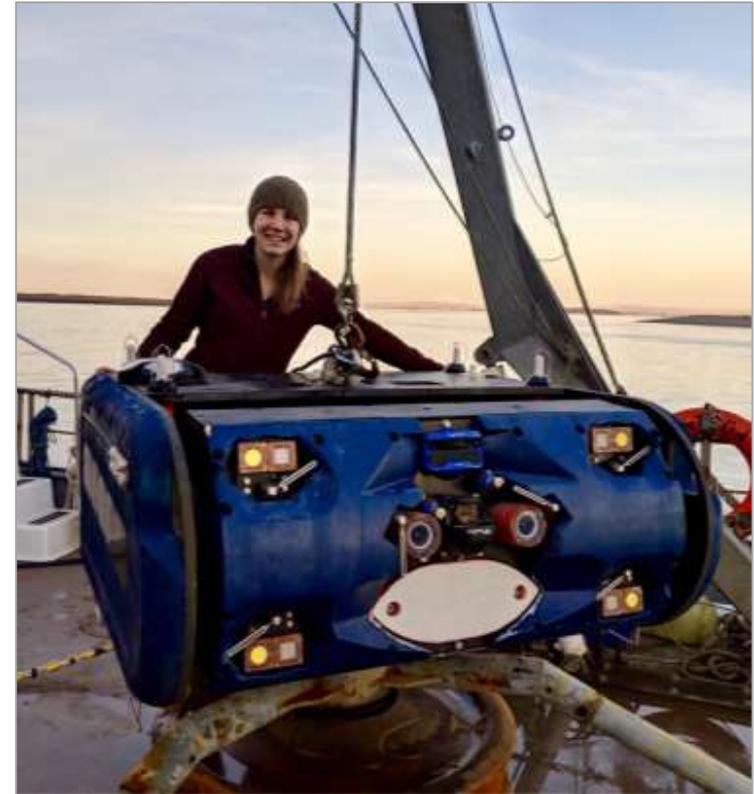

## Monitoring directives...

- Avoid biasing marine life
- Detect rare events
- Do not accrue a data mortgage

# The Adaptable Monitoring Package

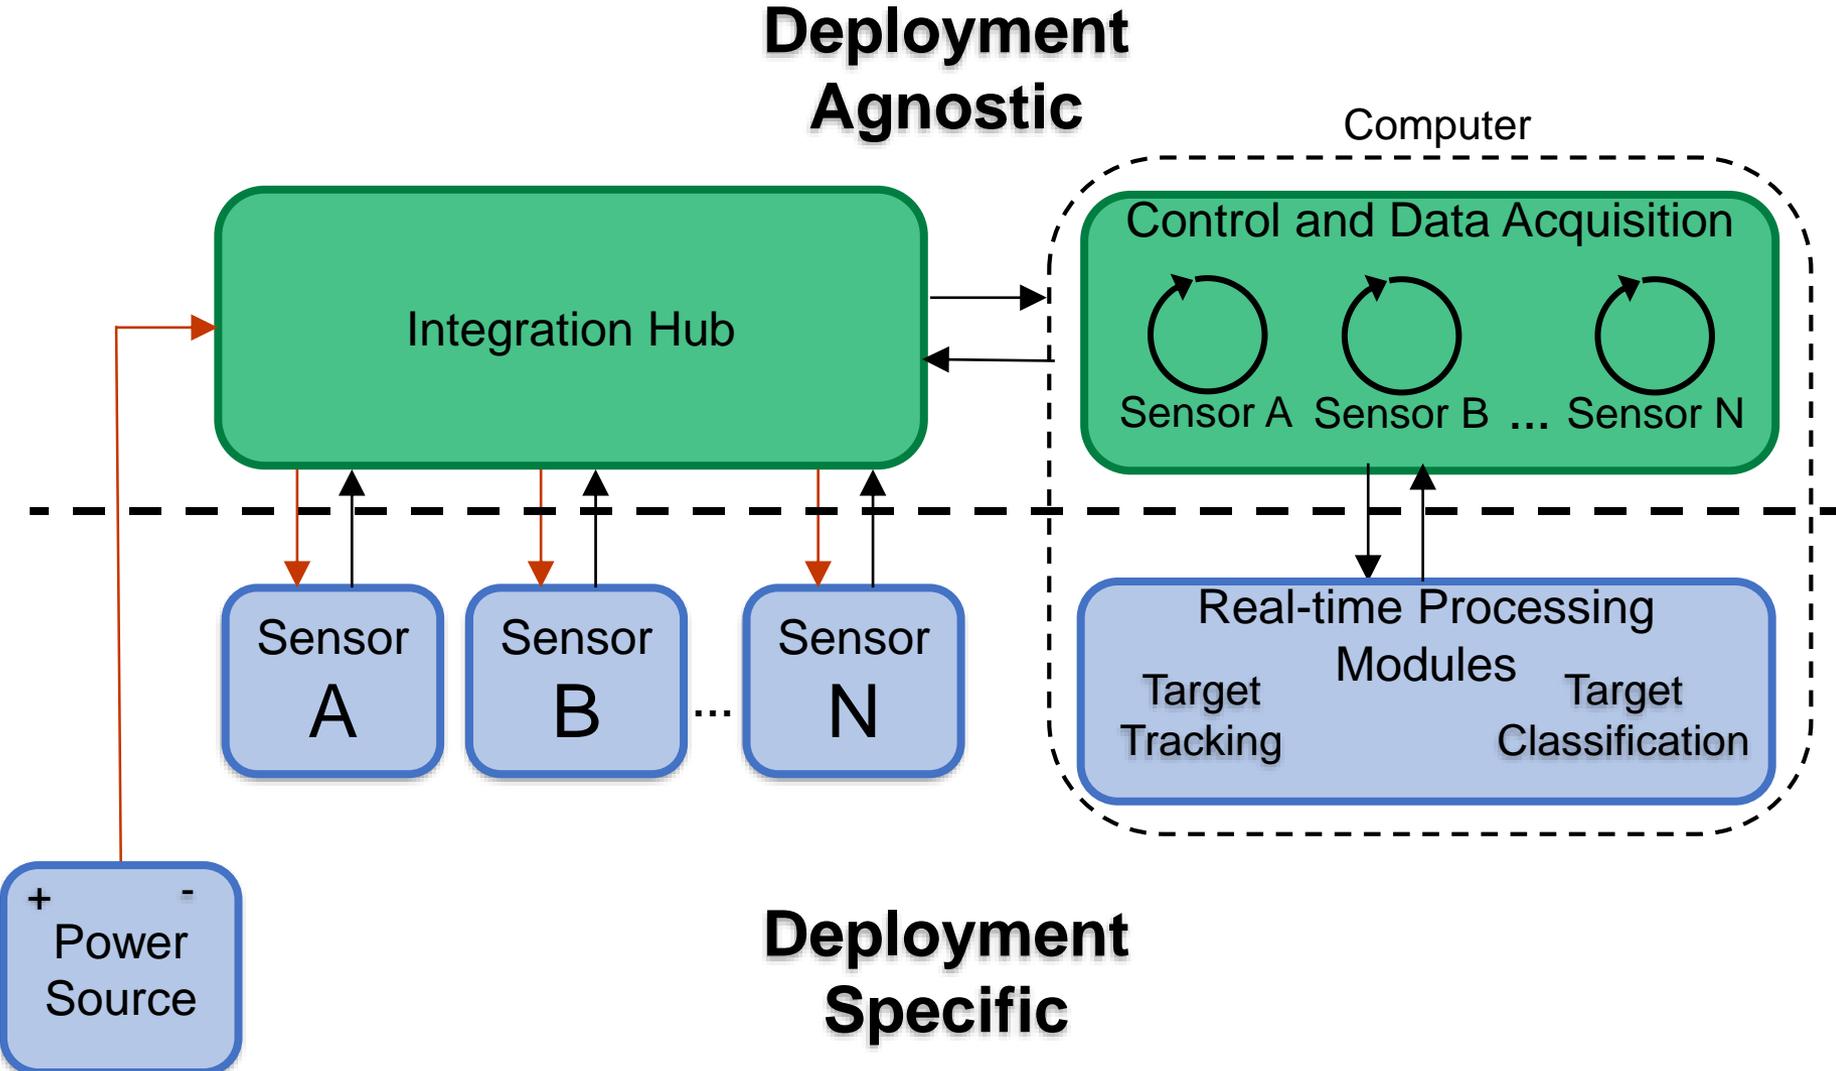

*AMP rendering with Instruments*

*AMP before deployment  
(Emma for scale)*

# System Architecture

# AMP (2017)

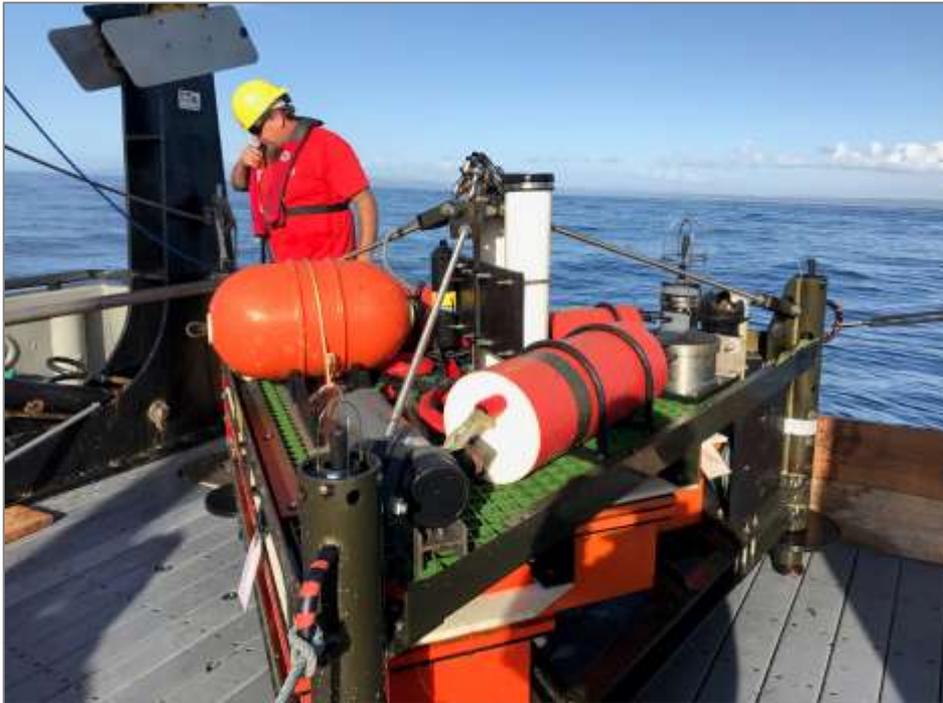

*Pacific Northwest  
National Laboratory*

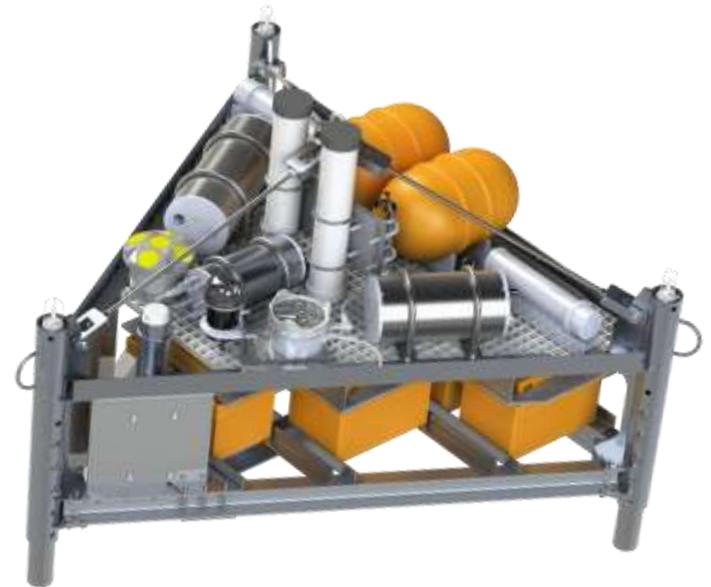

<b>Power Source</b>	Cabled
<b>Test Duration</b>	2.5 months (94% operational time)
<b>Real-time Processing</b>	Multibeam sonar target detection and tracking

# AutoAMP (2017)

*PacWave  
Test Site*

<b>Power Source</b>	Batteries
<b>Test Duration</b>	1.5 months
<b>Real-time Processing</b>	Fish tag detector

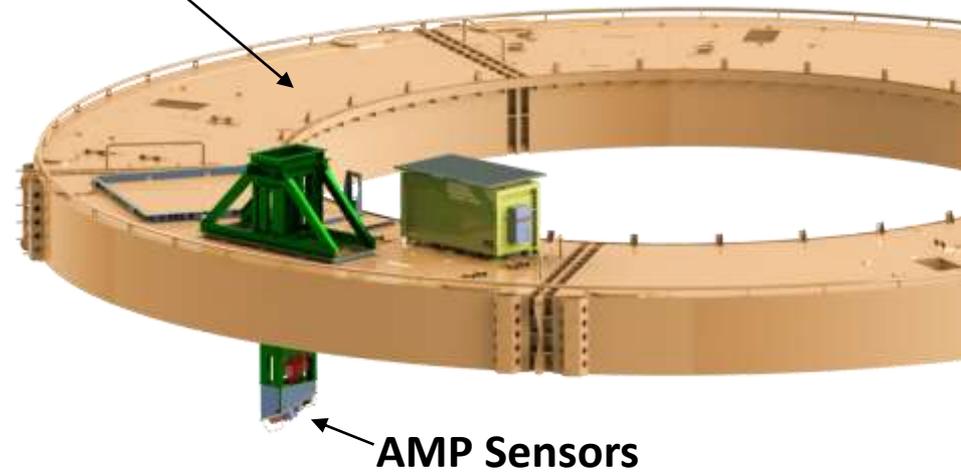

# WAMP (2018-2019)

US Navy Wave  
Energy Test Site

Fred. Olsen  
Lifesaver WEC

**Power Source**

Wave energy converter

**Test Duration**

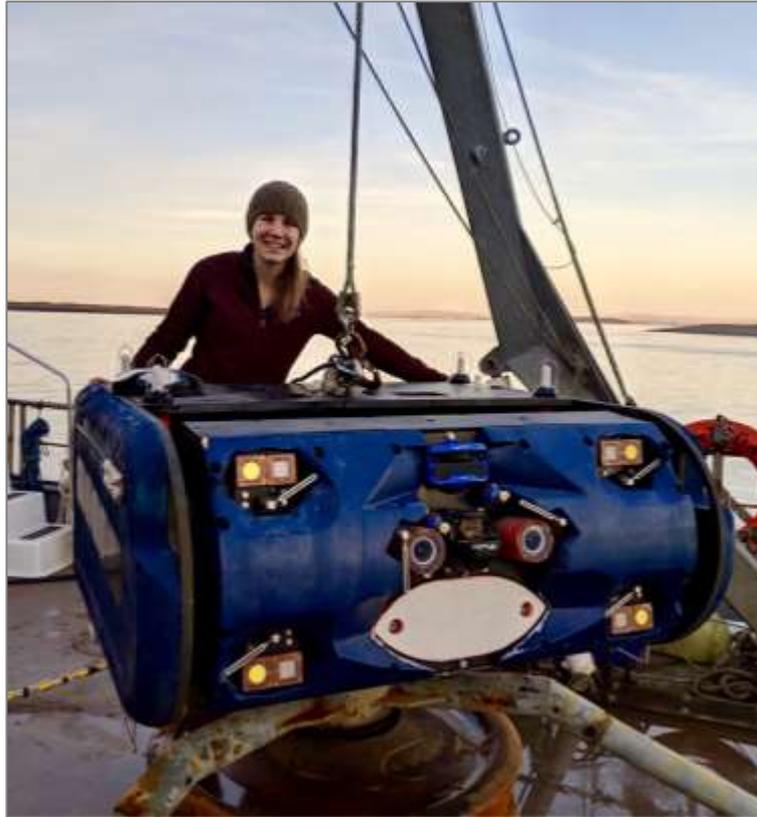

3.5 months (82% operational time)

**Real-time Processing**

Multibeam sonar target detection and tracking

# 3GAMP (2019)

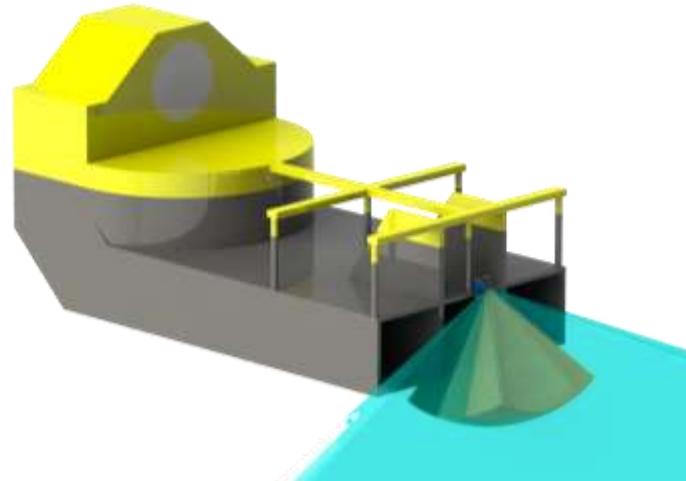

*Pacific Northwest  
National Laboratory*

<b>Power Source</b>	Cabled
<b>Test Duration</b>	4 months (96% operational time)
<b>Real-time Processing</b>	Multibeam sonar target detection, tracking, and classification

# Ongoing Developments

*US Navy Wave  
Energy Test Site*

<b>Power Source</b>	Wave energy converter
<b>Test Duration</b>	12 month target
<b>Real-time Processing</b>	Multibeam sonar target detection and classification + optical target detection and classification

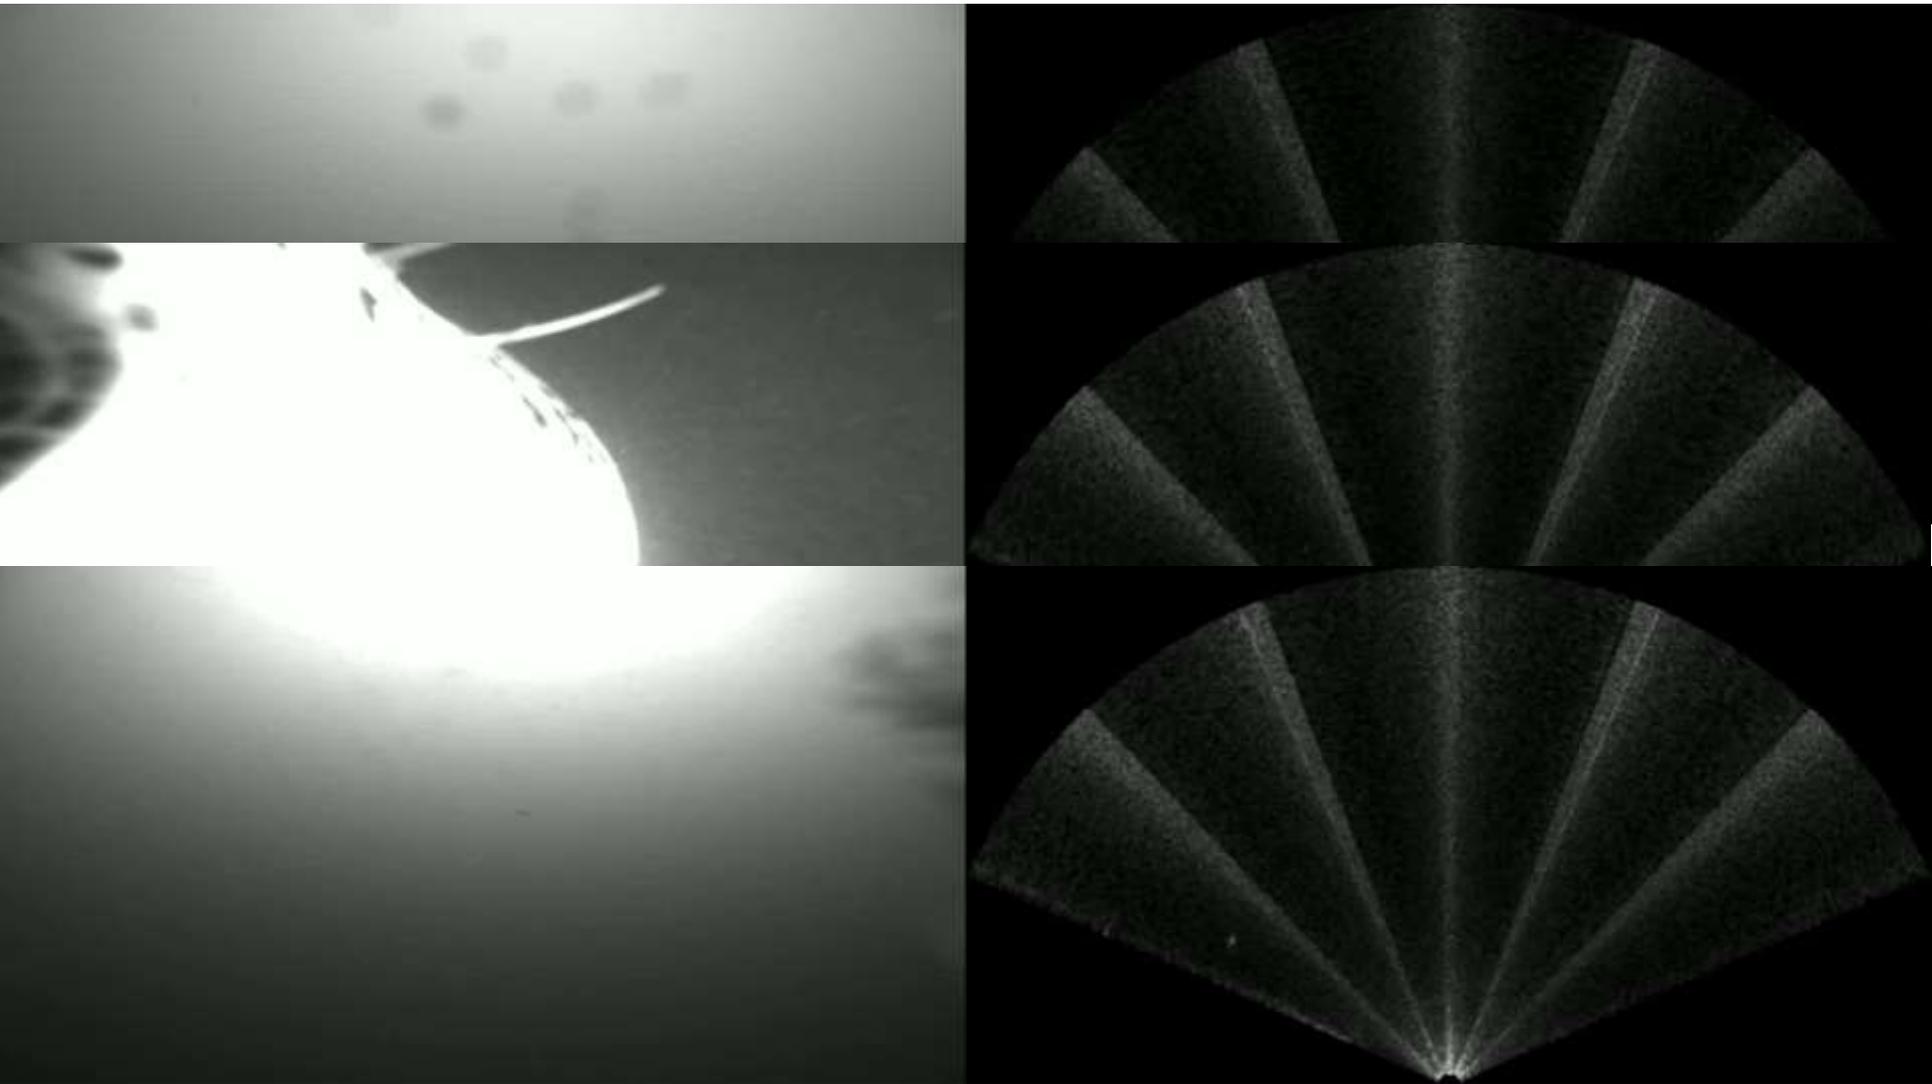

# Ongoing Developments

<b>Power Source</b>	Cabled, tidal turbine
<b>Test Duration</b>	6 + month target
<b>Real-time Processing</b>	Multibeam sonar target detection and classification + optical target detection and classification + ???

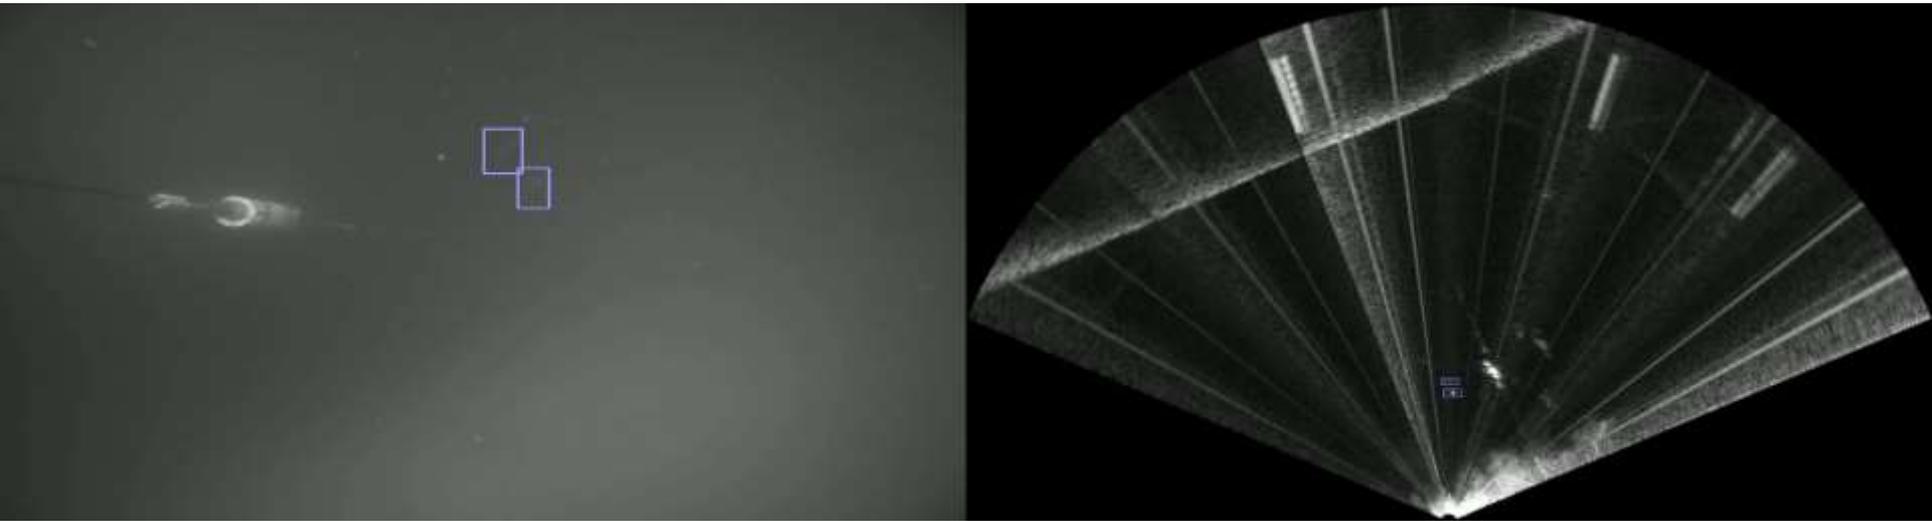

# Data Examples – See YouTube Channel for more!

*Sample data from 3GAMP*

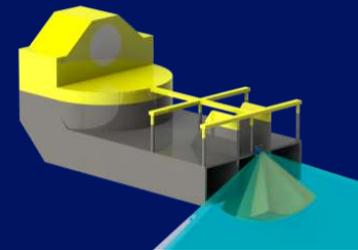

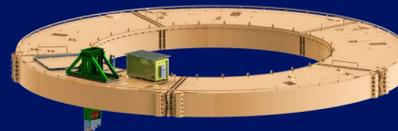

# Data Examples – See YouTube Channel for more!

*Sample data from WAMP*

# Lessons Learned

Integrated platform offer new and exciting capabilities...  
but don't underestimate the complexity of sensor integration,  
and consider data collection objectives early and often.
