

WREN Webinar Series: Raptor Behaviour and Physiology as it Relates to Wind Energy Development

Time (Min)	Presenter	Country	Tentative title
5	Cris Hein	USA	Introduction to WREN
5	Roel May	NO	Overview of Webinar
15	Jeff Lucas	USA	Understanding the Golden Eagle and Bald Eagle Sensory Worlds to Enhance Detection and Response to Wind Turbines
15	Esteban Fernandez-Juricic	USA	Understanding the Golden Eagle and Bald Eagle Sensory Worlds to Enhance Detection and Response to Wind Turbines
15	Eliot Quon	USA	Coupled micro- and meso-scale CFD models for predicting eagle flights through wind farms
15	Guillaume Péron	FR	Raptors, updrafts and energy landscapes
15	Ana Teresa Marques	ES	Wind turbines cause functional habitat loss for migratory soaring birds
15	Sergio Vignali	CH	Potential conflicts between the bearded vulture and the development of wind energy
20	Q&A
